3 (A) 次の英文の下線部を指示語の内容も含めて和訳せよ。(24)

Ordinarily that man is considered healthy who eats well and moves about, and does not resort to a doctor. But a little thought will convince us that this idea is wrong. There are many cases of men being diseased, in spite of their eating well and freely moving about. ⁽¹⁾They are under the delusion that they are healthy, simply because they are too indifferent to think about the matter.

In fact, perfectly healthy men hardly exist anywhere over this wide world.

As has been well said, only that man can be said to be really healthy, who has a sound mind in a sound body. The relation between the body and the mind is so intimate that, if either of them got out of order, the whole system would suffer. Let us take the analogy of the rose-flower. Its color stands to its fragrance in the same way as the body to the mind or the soul. ⁽²⁾No one regards an artificial paper-flower as a sufficient substitute for the natural flower, for the obvious reason that the fragrance, which forms the essence of the flower, cannot be reproduced. So too, we instinctively honor the man of a pure mind and a noble character in preference to the man who is merely physically strong. ⁽³⁾Of course, the body and the soul are both essential, but the latter is far more important than the former.

(注) move about : move here and there a bit

resort to : reluctantly do so because they have no other choice

delusion : a belief that is not true

sound : free from defect, decay or damage

intimate : ex) a close good friend = an intimate friend

analogy : similarity
